

COMPANY PROFILE

Vikima Seed, based in Denmark, is the leading producer of vegetable seeds in Europe and USA.

In collaboration with our selected seed growers and competent employees, we ensure Your Future Harvest.

Our vision is to be the favourite collaborator for leading international vegetable seed companies.

We produce vegetable seeds of the highest possible physical and genetic quality to fulfil the demands of the customers' worldwide.

Vikima Seed Multiplication™ is specialised in the contract production of a great number of species of vegetable and flower seeds.

Vikima Seed Sale™ produces, sells, and markets more than 150 selected standard vegetable seed qualities for distributors on the international markets.
